SD330

The Saturn SD290 & SD330 inflatable boats come standard with a high-pressure drop stitch air deck floor. Our drop stitch floors can take up to 9 psi of air pressure, and become extremely rigid once properly inflated. Not only do air floors make inflatable boats much lighter and more compact when deflated, but they also make it much easier to assemble and disassemble the boat. You simply unroll it and pump in air with the included hand pump. To deflate the boat, simply open all air valves and start rolling the boat from the transom, or quickly suck all air out with an electric pump.

Tech Specs SD290

Overall Length: 9.6'
 Inside Length: 6.0'
 Overall Width: 5.4'
 Inside Width: 2.4'
 Tube Diameter: 16.5"
 Chambers: 3+1+1
 Person Capacity: 4
 Loading Capacity: 992 lbs
 Max Motor Power: 10 HP
 Tube Weight: 85 lbs
 Shipping Size: 45 x 24 x 13"
 Shipping Weight: 95 lbs
 Floor Type: Drop Stitch Air Floor
 Material: 1100 Denier PVC

Saturn inflatable boats are made of 1100 denier Korean PVC fabric with polyester support that has excellent resistance to tearing, tension and breaking. It is a much more heavy-duty PVC fabric than most of our competitors with 1000 denier PVC boats.
