BoatsToGo.com Introduces Affordable Inflatable Catamarans to the masses.

North Miami, FL, October 10, 2013 – BoatsToGo.com would like to introduce their line of Saturn inflatable catamarans, which have been specially designed to lower the amount of power these inflatable boats need to cut through the water, while still increasing their speed over other competing catamarans.

“Saturn’s goal when designing these great inflatable boats was to increase their efficiency when traveling through the water,” said BoatsToGo.com president Eliot. “To do that, they designed a cutting-edge hull that would allow these inflatable catamarans to cut easily through the water even when using a low power motor.”

Available in 9.6’, 11’, and 12’, BoatsToGo.com has the right size inflatable catamaran to meet anyone’s needs. And starting at only \$599 during BoatsToGo.com’s current inflatable boat sale, these catamarans are the perfect way to get you and your family out on the water at an affordable price.

“Whether you are looking to go for a little Sunday fishing voyage with your buddies, or just enjoy a leisurely day out on the water with your family, these inflatable catamarans have been designed to meet all of your needs,” said Eliot. “And with our current inflatable boat sale, the prices are even better!”

Another great money saving feature of these inflatable boats is their ease of storage and transport. Though they are built to feel just as solid and safe as a hard hull boat when they are inflated, they can be easily deflated between uses and stored in small areas. They can also fit right in your car, so you don’t need a trailer to take them wherever you want to go.

Saturn also takes safety very seriously on all of its inflatable boats. That’s why the tubes on these inflatable catamarans have been specifically designed to be durable and resistant to puncture. But just in case, each tube has also been designed with two separate air chambers so in the unlikely event of a puncture, your inflatable boat will still remain afloat.

As a bonus during their inflatable boat sale, BoatsToGo.com is also offering a free hand pump, repair kit, set of oars, and two aluminum benches with each catamaran purchase, giving you everything you need to get right out on the water and enjoy your new inflatable boat.

To get some more information about inflatable catamarans and other cutting-edge Saturn inflatable boats, take a look at BoatsToGo.com.
