

Inflatable Boats And Rafts

Stable

Being an inflatable, a SATURN has an inherently low center of gravity and air all around in the buoyancy tube. If you ever try to capsize it, you'll see it's practically impossible! Whether stationary or cruising, a SATURN is always stable; you can stand up when fishing, children are safe, and mooring alongside a quay is simple.

Unsinkable

The buoyancy tube of your SATURN is made up of several independent airtight compartments. If one compartment unexpectedly deflates, the others remain inflated, making a SATURN practically impossible to sink thereby allowing you to return slowly to safety.

Easy to Store

Once deflated and folded, a SATURN takes up about as much space as a medium bag. You can store it in a locker, under the stairs or in a corner of the garage, ready for the next weekend or holidays.

Easy to Launch

...And easy to pull up on to dry land. Like all inflatable boats, the weight of a SATURN can be up to three times lighter than a comparable rigid boat. You will not hesitate to beach it and spend the day in a beautiful, remote creek.

Economical

SATURN is intended as the best introduction possible to boating on a moderate budget. Its maintenance is simple and inexpensive. It requires a small outboard, that is economical to buy and to use, and if maintained properly, a SATURN will last up to 10 years or more.

A SATURN

... Is the perfect boat for discovering the joys of boating. Easy to set up, it is fitted with a roll up floor making assembly quick and easy; simply unroll and inflate with the foot-pump or the electric pump! Safe and easy to navigate, a SATURN has an inflatable keel whose form creates a high performance hull shape. Easy to transport and easy to store away, a SATURN travels in the trunk of your car.

SATURN Inflatable Boats are hand-sealed at the seams for perfect seaming-the most expensive and reliable method used today. Each seam is strengthened with four layers of bonded fabric for maximum strength and durability. This high stress point demonstrates SATURN craftsmanship and durability.

Saturn Dinghy SD230

Length	7'5"
Width	4'3"
Tube Diameter	14"
Num Chambers	2+1+1
Max Persons	3
Max Capacity	600 lbs
Max O/B Motor	5 HP
Tube Weight	77 lbs
Packing size	45"x23"x13"
Floor Type	Air floor

Saturn Dinghy SD260

Length	8'6"
Width	5'3"
Tube Diameter	16.5"
Num Chambers	3+1+1
Max Persons	3 + 1
Max Capacity	770 lbs
Max O/B Motor	10 HP
Tube Weight	80 lbs
Packing size	45"x23"x13"
Floor Type	Air floor

- Extremely rigid, lightweight hull for excellent performance.
- Heavy-duty marine grade plywood transom for short shaft motors.
- Includes plywood seat, aluminum oars, pump, repair kit, carry bag.
- Front D-ring with integral lifting handle.
- Separate internal air chambers.
- All around, durable rubber strike.
- Cast-aluminum engine bracket.
- One-way drain valve with plug.
- Stainless steel towing rings.
- Super reliable Halkey-Roberts valves
- Safety valve.
- Deep inflatable V keel.

Saturn Dinghy SD290

Length	9'6"
Width	5'3"
Tube Diameter	16.5"
Num Chambers	3+1+1
Max Persons	4 + 1
Max Capacity	992 lbs
Max O/B Motor	10 HP
Tube Weight	85 lbs
Packing size	45"x23"x13"
Floor Type	Air floor

SATURN Inflatable Boats is the perfect dinghy for discovering the joy of boating. Easy to set up, most SATURN boats are fitted with a roll up floor making assembly quick and easy; simply unroll and inflate with the high output air pump! Safe and easy to navigate.

Saturn Dinghy SD330

Length	11'
Width	5'4"
Tube Diameter	16.5"
Num Chambers	3+1+1
Max Persons	4 + 1
Max Capacity	1200 lbs
Max O/B Motor	15 HP
Tube Weight	90 lbs
Packing size	45"x23"x13"
Floor Type	Air floor

- Extremely rigid, lightweight hull for excellent performance.
- Heavy-duty marine grade plywood transom for short shaft motors.
- Includes plywood seat, aluminum oars, pump, repair kit, carry bag.
- Front D-ring with integral lifting handle.
- Separate internal air chambers.
- All around, durable rubber strike.
- Cast-aluminum engine bracket.
- One-way drain valve with plug.
- Stainless steel towing rings.
- Super reliable Halkey-Roberts valves
- Safety valve.
- Deep inflatable V keel.

Saturn Dinghy SD365

Length	12'
Width	5'8"
Tube Diameter	18"
Num Chambers	3+1+1
Max Persons	5 + 1
Max Capacity	1430 lbs
Max O/B Motor	30 HP
Tube Weight	130 lbs
Packing size	51"x25"x13"
Floor Type	Air floor

SD365 boat can be used for anything from dinghy, to fishing boat, to lifeboat, to sport or leisure boat. SD365 boat is large, but still lightweight, and can be easily carried by one person with a handcart. This boat will fit easily in minivan or SUV.

Saturn Dinghy SD385

Length	12'6"
Width	5'8"
Tube Diameter	18"
Num Chambers	3+1
Max Persons	6 + 1
Max Capacity	1700 lbs
Max O/B Motor	30 HP
Tube Weight	154 lbs
Packing size	55"x29"x12"
Floor Type	Plywood

12.6-foot SD385 is one of the largest SATURN inflatable boats available. SD385 is great as a fishing boat or as large dinghy to carry up to 7 person maximum. SD385 boat made of 1,100 Dtex High Strength fabric consisting of 5-layer thick construction and double bonded seams. One layer Neoprene, two layers of Nylon, two layers of Strongan fabric for outer strength and an excellent deterrent of ultra-violet rays.

Marine Grade Plywood Floor

Saturn Dinghy SD430

Length	14'
Width	6'2"
Tube Diameter	18"
Num Chambers	3+1
Max Persons	7 + 1
Max Capacity	1820 lbs
Max O/B Motor	40 HP
Tube Weight	220 lbs
Packing size	55"x29"x12"
Floor Type	Plywood

- Inflatable deep-V keel.
- Marine plywood floorboard coated in vinyl resin.
- All aluminum floor frames.
- 6 carrying handles.
- 1 stainless steel bow handle.
- 2 stainless steel towing D-Rings.
- Rubbing strake fender all around boat and under keel.
- 2 oars,
- 3 drain plugs.
- 1 pump.
- 1 repair kit.
- 1 carry bag for the boat.

SD430 boat is made with premium quality materials (Military Grade Quality), and can handle up to 8 persons maximum. SD430 takes up to 40HP motor. But even with 20 HP motor this boat will fly. Central console and comfortable seats can be easily installed on extra rugged plywood floor.

Whitewater Rafts	RD390	RD430
Length	12'7"	14'1"
Width	5'9"	7'
Tube Diameter	17.7"	19.6"
Air Chambers	4 + 2 + 1	4 + 2 + 1
Floor Board	Air Deck Floor	Air Deck Floor
Weight	141 lbs	176 lbs
Package Size	55 x 25 x 11	55 x 25 x 19
Passenger Capacity	8	10
Towing D-rings	6	6
Caring Handle	8	8
Paddles	8	12
Caring Bag	YES	YES
Foot Bellow	2	2
Anti-chafing reinforcement	2	2
Inflatable Thwart	2	3

Whitewater Professional Grade River Raft. Heavy-duty inflatable fabric: 1,100 Dtex High Strength PVC fabrics coated on both side with 1100 g/m², 0.9mm. Thick, puncture proof and abrasion resistance fabric. High-pressure air floor board (140mm AIR FLOOR) with foot holder. Seating area and raft bottom are reinforced. 4+1+2 Infi/Deflation Halkey-Roberts valves. Lifting handles are around the raft. Lifeline all around the raft. 110mm rubbing strake all around the raft. Self-bailer: 12mm EYELET, 15cm interval

QUALITY SINCE 1983

- SATURN inflatable boats, dinghies and rafts are quality made by leading manufacturer of inflatable boats in South Korea. Inflatable boats manufacturer is a major supplier of inflatable rafts for Korean military and possesses over 20 patents in 12 different countries including: double wall fabric for high-pressure air deck floors and air safety valves for inflatable boats and rafts.
- The quality of SATURN dinghy and rafts has been regarded as superior to its more widely known competitors, and mostly imported to Japan, Australia, New Zealand and Europe.

STANDARD ACCESSORIES:

- One pair of aluminium oars.
- High output air pump.
- Repair Kit.
- Carry bag.
- One plywood seat.

All boats are made of 1,100 Dtex high strength fabrics consisting of 5-layer thick construction and double bonded seams. One layer Neoprene, two layers of Nylon, and two layers of PVC fabric for outer strength and an excellent deterrent of ultra-violet rays.

All **SATURN** boats except SD385 and SD430 come with High Pressure Air Deck Floors. The advantages of an air floor are its lightweight and ease of use. You can roll up or unroll your boat in a pinch without having to remove or install the floor. Fitting a panel floor can be a hassle with some designs, particularly if you're working on the water or on the deck of a sailboat.

High Pressure Inflatable **Air Deck Floor** offers impressive rigidity; boat can accelerate faster and attain impressive speed, while requiring less horsepower than comparably sized "hard floor" boats.

CUSTOM MADE BOAT COVERS WITH OUTBOARD MOTOR OPENING.

PROTECTS DINGHY FROM:
SUN, RAIN AND SEAGULS

Marine Grade Plywood Floor
