

15' SD470 Saturn Inflatable Boat

The **15 foot inflatable boat SATURN SD470** is a heavy-duty workboat excellent for any water based activity, such as fishing, day trips or scuba diving. The SD470 is a recent addition to the SATURN line of high performance inflatable boats. 15' SATURN SD470 inflatable boats are made with premium quality materials, and can handle up to a maximum of 8 persons. SD470 boats are made of 1100 denier Korean PVC fabric with polyester support that has excellent resistance to tearing, tension and breaking. The heavy-duty outer layer, protects the boat against UV rays, ozone and abrasion, and inner layers provides perfect strength and adhesion. Deflated, the SD470 boat will fold to the size of one large and heavy bag with tubes and another large and heavy flat bag with a floor. Once deflated and folded, the SD470 can be stored in the back of your SUV or minivan, large closet of your apartment or in a garage. Double layers of fabric at the bottom of the tubes and a rub-strake protector along the keel provide extra protection from sharp rocks and abrasive sand. The safety valve will prevent excessive air pressure in the boat's chambers. 15' SATURN inflatable boats come standard with a sectional heavy-duty aluminum floor. The bow section is made of a marine grade plywood floor covered with a gray resin.

SATURN SD470 FEATURES:

- All around rope grab line.
- Separate internal air chambers.
- One-way drain valve with plug.
- All around, durable rubber strike.
- Safety valve to prevent over inflation.
