

## 18' SD518 Saturn Inflatable Boat

The 18 foot Saturn inflatable motor boat SATURN SD518 is our largest vessel and its ready to be used as commercial work boat, for fishing or diving, or just a pleasure day on a water. The SD518 is a latest addition to the SATURN line of high performance heavy-duty inflatable boats. 18' SATURN SD518 inflatable boats are made from heavy-duty quality PVC fabric, and can handle up to a maximum of 10 persons. Deflated, the SD470 boat will fold to the size of one large and heavy bag with tubes and another large and heavy flat bag with a floor. Once deflated and folded, the SD470 can be stored in the back of your SUV or minivan, large closet of your apartment or in a garage. Double layers of fabric at the bottom of the tubes and a rub-strake protector along the keel provide extra protection from sharp rocks and abrasive sand. The safety valve will prevent excessive air pressure in the boat's chambers. Grommet splash guard with grab safety rope moved off-center to create comfortable seating surface on top of oversized tubes.

18' SD518 inflatable motor boats come equipped with with a sectional heavy-duty aluminum floor. The bow section is made of a marine grade plywood floor covered with a gray resin.

### SATURN SD518 FEATURES:
